

Comfort Clipboard Pro 9.0 has been released!

This update is **free of charge** for our customers.

How to update the program:

1. Download new installation file from here: http://www.comfort-software.com/download/cc_setup.exe
2. Install new version into the same folder as your previous version.
3. Run the program.

Changes in this version:

- **New** design and new icons.
- **New** styles have been added: Windows 10, Colored, Android. Order of styles has been changed.
- **Improved** support of High DPI Displays on devices like Microsoft Surface, when "Size of text, apps, and other items" is more than 200%.
- **Fixed:** Now the clipboard manager is displayed next to the text cursor when necessary.
- **Fixed:** Now the clipboard manager is hidden on the login screen in Windows 10.
- **Fixed** an issue with computer restart.
- Some other bugfixes and improvements.

Best regards,

Comfort Software Group
